

Publikationen von Dietrich Falke

1. Falke D.
Virologie. In: Medizinische Mikrobiologie. 6. Auflage. Hahn H, Suerbaum S, Kaufmann SHE, Schultz TH (Hrsg).
Springer Verlag, Heidelberg, 2008
2. Modrow S, Falke D, Truyen U, Schätzl H
Molekulare Virologie. 3. Aufl. Spektrum Akademischer Verlag, Heidelberg, 2008
3. Podlech J, Falke D
Virusinfektionen. In: Springer Lexikon Diagnose und Therapie. P. Reuter (Hrsg.).
Springer-Verlag, Heidelberg. 2006. p-1667-1678.
4. Keller KM, Braun R, Falke D.
Virusgastroenteritis. Differenzialdiagnose und Therapie.
tägl. prax. 2004;48:28-38
5. Hahn H, Falke D, Kaufmann SHE, Ullmann U.
Medizinische Mikrobiologie und Infektiologie. 5. Auflage
Springer Verlag, Heidelberg, 2004
6. Falke D, Podlech J.
Virus und Tumor – Grundbegriffe der Onkologie. In: Springer Lexikon Medizin. P.
Reuter (Hrsg.).
Springer-Verlag, Heidelberg. 2004.
7. Huemer HP, Wechselberger C, Bennett AM, Falke D, Harrington L.
Cloning and expression of the complement receptor glycoprotein C from Herpesvirus
simiae (herpes B virus): protection from complement-mediated cell lysis.
J Gen Virol. 2003 May;84(Pt 5):1091-100.
8. Bachmann M, Deister H, Pautz A, Laubinger J, Schmitz M, Falke D, Podlech J,
Grölz D.
The human autoantigen La/SS-B accelerates herpes simplex virus type 1 replication
in transfected mouse 3T3 cells.
Clin Exp Immunol. 1998 Jun;112(3):482-9.
9. Falke D.
Virologie am Krankenbett. Springer-Verlag, Heidelberg, 1998
10. Falke D.
Herpes simplex virus and the cytoskeleton.
Trends Microbiol. 1997 Aug;5(8):306.
11. Podlech J, Hengerer F, Fleck M, Kunkel J, Falke D.
Localization of latency-associated transcripts in the uterovaginal plexus of herpes
simplex virus type 1 and 2 latently infected mice.
J Gen Virol. 1997 May;78 (Pt 5):1103-8.

12. Podlech J, Hengerer F, Fleck M, Eray K, Falke D.
Asymptomatic vaginal herpes simplex virus infections in mice: virology and pathohistology.
Arch. Virol. 1996; 141:263-74.
13. Podlech J, Hengerer F, Fleck M, Walev I, Falke D.
Replication of Herpes simplex virus type 1 and 2 in the medulla of the adrenal gland after vaginal infection of mice.
Arch. Virol. 1996; 141:1999-2008.
14. Lingen M, Hengerer F, Falke D.
Mixed vaginal infections of Balb/c mice with low virulent herpes simplex type 1 strains result in restoration of virulence properties: vaginitis/vulvitis and neuroinvasiveness.
Med Microbiol Immunol. 1997 Mar;185(4):217-22.
15. Seck T, Koch O, Lingen M, Falke D.
Influence of glycoproteins B, C and D on the conversion of virus-to-cell attachment from heparin sensitivity to resistance.
Acta Virol. 1996 Sep;40(4):179-85.
16. Klein SA, Dobmeyer JM, Dobmeyer TS, Falke D, Kabelitz D, Friese K, Helm EB, Hoelzer D, Rossol-Voth R.
TNF-alpha mediated apoptosis of CD4 positive T-lymphocytes. A model of T-cell depletion in HIV infected individuals.
Eur J Med Res. 1996 Feb 22;1(5):249-58.
17. Lingen M, Seck T, Weise K, Falke D.
Two mutations in gB-1 and gD-1 of herpes simplex virus type 1 are involved in the "fusion from without" phenotype in different cell types.
Virus Genes. 1996;13(3):221-8.
18. Podlech J, Hengerer F, Fleck M, Walev I, Falke D.
Replication of herpes simplex virus type 1 and 2 in the medulla of the adrenal gland after vaginal infection of mice.
Arch Virol. 1996;141(10):1999-2008.
19. Lingen M, Seck T, Weise K, Falke D.
Single amino acid substitutions in the glycoprotein B carboxy terminus influence the fusion from without property of herpes simplex virus type 1.
J Gen Virol. 1995 Jul;76 (Pt 7):1843-9.
20. Lingen M, Seck T, Dehoust U, Weise K, Falke D.
Amino acid substitutions in glycoprotein D mediate the ability of fusion from without-positive herpes simplex virus type 1 strains to penetrate at 4 degrees and in the presence of soluble glycoprotein D.
Intervirology. 1995;38(5):283-9.
21. Walev I, Podlech J, Falke D.
Enhancement by TNF-alpha of reactivation and replication of latent herpes simplex virus from trigeminal ganglia of mice.
Arch Virol. 1995;140(6):987-92.

22. Walev I, Dienes HP, Bohl J, Podlech J, Falke D.
Correlation of virus replication, cytokine (TNF-alpha and IL-1) producing cells, neuronal necrosis and inflammation after intranasal infection of mice with herpes simplex virus strains of different virulence.
Arch Virol. 1995;140(11):1957-67.
23. Fleck M, Podlech J, Weise K, Falke D.
A vaccinia virus--herpes simplex virus (HSV) glycoprotein B1 recombinant or an HSV vaccine overcome the HSV type 2 induced humoral immunosuppression and protect against vaginal challenge in BALB/c mice.
Med Microbiol Immunol. 1994 May;183(2):87-94.
24. Walev I, Lingen M, Lazzaro M, Weise K, Falke D.
Cyclosporin A resistance of herpes simplex virus-induced "fusion from within" as a phenotypical marker of mutations in the Syn 3 locus of the glycoprotein B gene.
Virus Genes. 1994 Jan;8(1):83-6.
25. Seck T, Lingen M, Weise K, Falke D.
Evidence for a multistep mechanism for cell-cell fusion by herpes simplex virus with mutations in the syn 3 locus using heparin derivatives during fusion from within.
Arch Virol. 1994;136(1-2):173-81.
26. Dienes HP, Schirmacher P, Weise K, Falke D.
Herpes simplex virus hepatitis and related problems.
Int Rev Exp Pathol. 1994;35:1-38. Review.
27. Falke D.
[Milestones in virology]
Immun Infekt. 1993 Jun;21(3):69-74. Review. German.
28. Buchele A, Scholz U, Haferkamp A, Falke D, Eger K.
Affinitätschromatographie. Proteinreinigung und Enzymreinigung.
BioTec. 1993.; 6:36-39
29. Fleck M, Podlech J, Weise K, Müntefering H, Falke D.
Pathogenesis of HSV-1/2 induced vaginitis/vulvitis of the mouse: dependence of lesions on genetic properties of the virus and analysis of pathohistology.
Arch Virol. 1993;129(1-4):35-51.
30. Wollert KC, Fleck M, Podlech J, Weise K, Corell A, Falke D.
Vaginal infection of mice with HSV type 2 variant ER-: a new animal model for human primary genital HSV type 2 infections.
J Virol Methods. 1992 Mar;36(3):265-76.
31. Bachmann M, Althoff H, Tröster H, Selenka C, Falke D, Müller WE.
Translocation of the nuclear autoantigen La to the cell surface of herpes simplex virus type 1 infected cells.
Autoimmunity. 1992;12(1):37-45.

32. Huemer HP, Larcher C, Dierich MP, Falke D.
Factors influencing the interaction of herpes simplex virus glycoprotein C with the third component of complement.
Arch Virol. 1992;127(1-4):291-303.
33. Walev I, Kunkel J, Schwaeble W, Weise K, Falke D.
Relationship between HLA I surface expression and different cytopathic effects produced after herpes simplex virus infection in vitro.
Arch Virol. 1992;126(1-4):303-11.
34. Gosztonyi G, Falke D, Ludwig H.
Axonal-transsynaptic spread as the basic pathogenetic mechanism in B virus infection of the nervous system.
J Med Primatol. 1992 Jan;21(1):42-3.
35. Gosztonyi G, Falke D, Ludwig H.
Axonal and transsynaptic (transneuronal) spread of Herpesvirus simiae (B virus) in experimentally infected mice.
Histol Histopathol. 1992 Jan;7(1):63-74.
36. Friese K, Beichert M, Hof H, Weikel W, Falke D, Sickinger R, Melchert F.
[Incidence of congenital infections]
Geburtshilfe Frauenheilkd. 1991 Nov;51(11):890-6. German.
37. Walev I, Weise K, Falke D.
Differentiation of herpes simplex virus-induced fusion from without and fusion from within by cyclosporin A and compound 48/80.
J Gen Virol. 1991 Jun;72 (Pt 6):1377-82.
38. Wiegand H, Dienes HP, Schirmacher P, Podlech J, Bohl K, Bohle M, Neumann-Haefelin D, Falke D.
Colonization of adrenal glands and ovaries of mice by variants of HSV 1 and 2. II. Histopathological, immunohistochemical and in situ hybridization studies.
Arch Virol. 1991;117(3-4):237-49.
39. Walev I, Wollert KC, Weise K, Falke D.
Characterization of fusion from without induced by herpes simplex virus.
Arch Virol. 1991;117(1-2):29-44.
40. Wollert K, el Ansari T, Rösen-Wolff A, Falke D.
The region 0.7615-0.796 m.u. of the HSV-1 genome determines suppression of humoral antibody formation against herpes simplex virus.
Arch Virol. 1991;116(1-4):175-84.
41. Rossol-Voth R, Rossol S, Schütt KH, Corridori S, de Cian W, Falke D.
In vivo protective effect of tumour necrosis factor alpha against experimental infection with herpes simplex virus type 1.
J Gen Virol. 1991 Jan;72 (Pt 1):143-7.
